New Old Stock Sale Item #1

AutoEnginuity + Drew CarDAQ-M + Dell Package

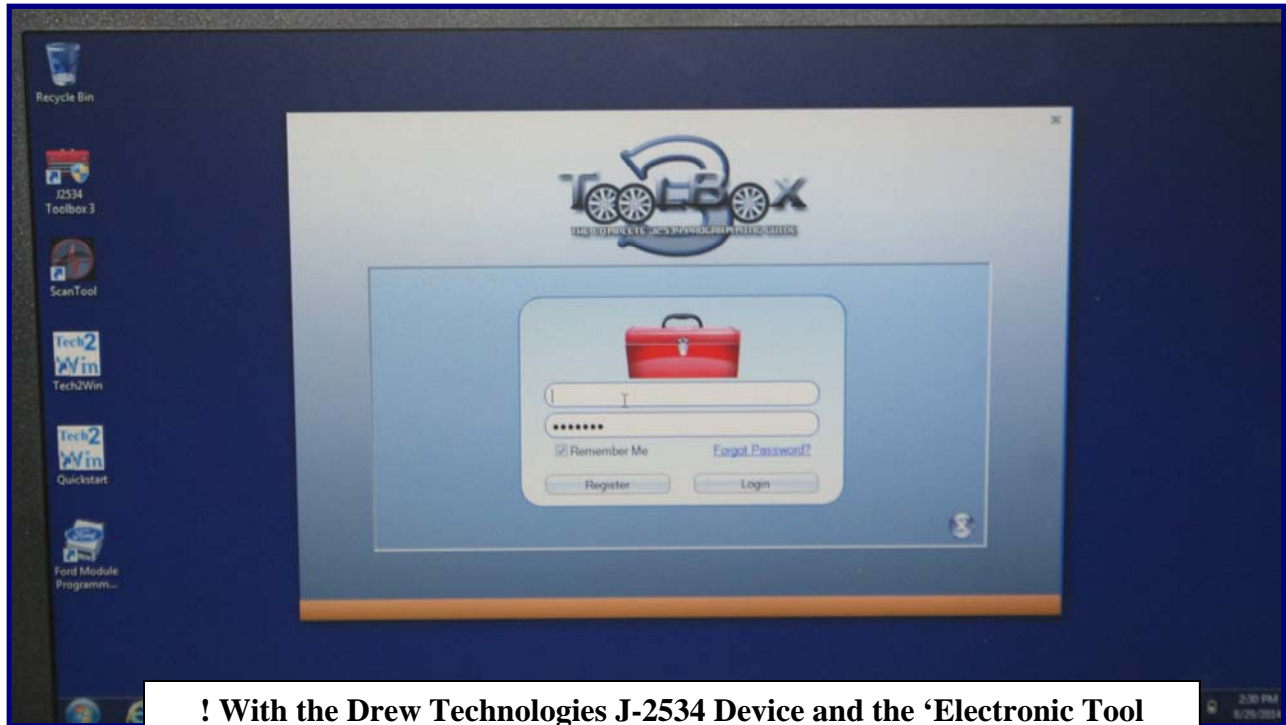

List Price @ \$5,499.95 / Sale Price @ \$3,675.00

Available as a complete package: One Dell Latitude E5500 Series custom configured laptop for multiple OEM apps with AutoEnginuity Domestic & European scan tool applications PLUS the CarDAQ-M latest generation J-2534 interface device that includes the Drewtech Electronic Tool Box for reprogramming multiple car lines! This package was ordered and shipped to a mid-west repair shop that refused delivery as they filed bankruptcy. It came back to CAS as 'Undelivered' by UPS and we are now offering it a reduced price with full warranty, support and training!

The fine print: Package is sold in this configuration (no changes) with a full one year Manufacturers warranty on all hardware and TAS First Year Support package included.
