

C.A.S. of New England

New Old Stock Sale Item #4

Can Test Box

List Price @ \$395 / Sale Price @ \$199.00

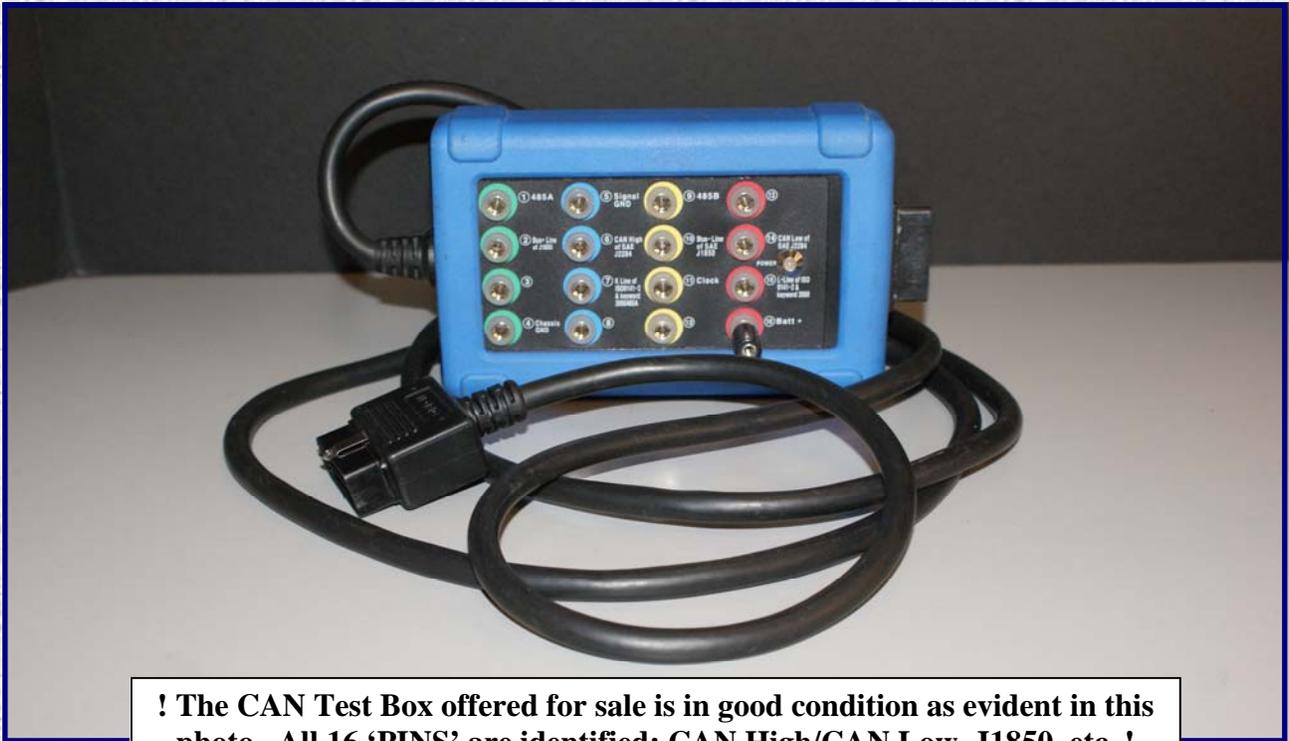

Available for sale is a 'CAN Test Box'. This device is used in conjunction with any 'CAN enabled' scan tool and it allows one to watch signal activity either by watching the various pins light up or by connecting your lab scope to the break out box.

This unit is a great condition, only the cardboard box it was packed in is damaged. The tool works fine and provides the technician invaluable in sight when troubleshooting CAS vehicles!

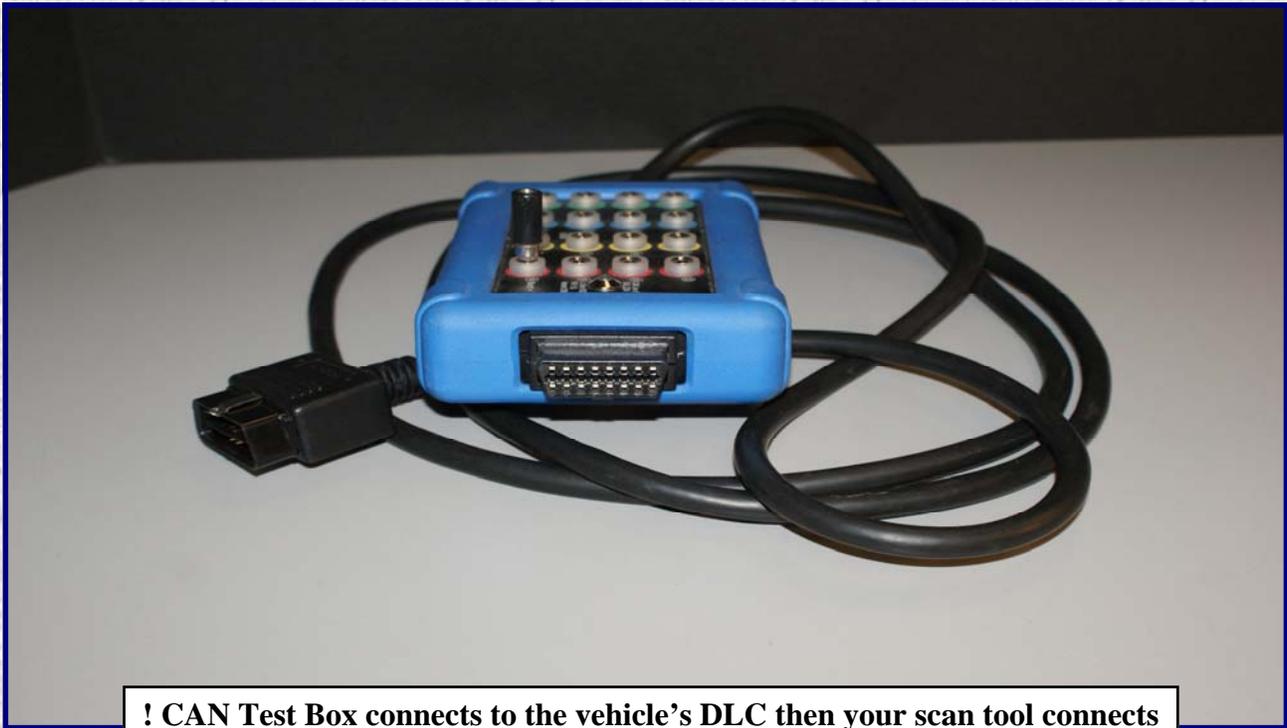

The fine print: Manufacturers 1 year warranty included with this Can Test Box

! The CAN Test Box offered for sale is in good condition as evident in this photo...All 16 'PINS' are identified: CAN High/CAN Low, J1850, etc. !

! CAN Test Box connects to the vehicle's DLC then your scan tool connects to the DLC plug on the CTB....A very nifty tool for troubleshooting!
